ASSEMBLY

You have a table mount similar to this one (maybe with an other mounting plate for your joystick).

To make the mount even more stable (for joysticks with Force Feedback) or to use a joystick with a long extension, you can mount your existing mounting plate to the new lower profile part or leave it on top.

Possibly only after the rest of the assembly for fine adjustment.

After adjusting the desired height, tighten the lock nut.

To adjust the height you have to loosen the green marked screws on both sides.

REASSEMBLE OF THE MOUNTING PLATE

These parts are not included with the Floor Support!
You received these parts with your Table Mount.

WARNING NOTICES

CAUTION! Check before usage if all screws are tightened.

DANGER: Contains small parts not suitable for children under 3 years.
Only suitable for children over 12 years and adults.

All MTSIM products are hand assembled and quality checked.
The mount is designed for usage only with a computer controller (f.e. joystick or throttle).
We exclude liability if the product is used for purposes other than intended.

MTSIM shall be liable for damage arising from causes other than the detriment to life, body and health only to the extent that such damage arises from wilful misconduct, gross negligence or the culpable violation of a fundamental contractual obligation on the part of MTSIM or a vicarious agent (e.g. the delivery service) of MTSIM. Any further liability for damages shall be excluded.
